PROFILE SUMMARY

Final-year Computer Engineering student, motivated and experienced in software development, web platforms, and technological solutions. Winner of four hackathons. Strong interest in IT project management, digital transformation, and software engineering. Demonstrates strong teamwork, analytical thinking, and continuous learning skills.

AWARDS & ACHIEVEMENTS

Hackathon Winner

- Digital Health Hackathon
- Finckathon (Vodacom M-Pesa)
- The Hardening Hackathon
- Moz xLab - UEM Hackathon

EDUCATION

Bachelor's Degree in Computer Engineering

2023 – Present

Eduardo Mondlane University - Maputo, Mozambique

Relevant Coursework: Software Engineering; Databases; Computer Networks; Artificial Intelligence.

Tools: Visual Studio Code, Microsoft Project, Git, GitHub, Postman, Figma, Docker, Maven and Linux.

TECHNICAL SKILLS

Web Development	React; JavaScript (ES6+); HTML5; CSS3; Tailwind CSS; REST APIs.
Backend Development	Java; Spring Boot; Node.js; REST API Development; Systems Integration.
Databases	PostgreSQL; MongoDB; SQL; Database Modeling.
Software Engineering	Software Architecture; Requirements Gathering and Analysis; UML; Software Testing; Agile Methodologies (Scrum).

INTERNATIONAL EXPERIENCE

African Inclusive Digital Industries (AIDI) 2026

Kigali, Rwanda

- Selected to participate in an international technical training program focused on Artificial Intelligence, Machine Learning, Robotics, IoT, and digital manufacturing.
- Participated in practical sessions, collaborative learning, and technology-focused activities with African engineering students.

PROJECTS

Beyond The Content 2026

Development of the official website for the Mozambique Voice Over Summit, featuring event information, speakers, panels, registration, and participant information. beyondthecontent.co.mz

Fin-Shield In development

Development of an intelligent system for protection against fraud and fake payment receipts on M-Pesa, developed as part of the Finckathon organized by Vodacom M-Pesa.

toXplore In development

Development of an intelligent system for object identification and contextual analysis using computer vision, as part of the Final-Year Project.

SKILLS

Problem Solving; Teamwork; Fast Learning; Adaptability; Organization; Professionalism.

LANGUAGES

Portuguese (native); English (intermediate).
